Tools I build with

Claude

Claude Cowork

Python

Mailchimp API

Shopify

ContentStack

Education

MBA, University of Michigan,
Ross School of Business
2015 - 2017

BA, Tufts University
2004 - 2008

Product leader with 12+ years of experience driving platform modernization, scaling \$100M+ eCommerce businesses, and delivering customer-centric digital experiences across regulated and high-growth environments. Known for creating structure in ambiguity, aligning complex stakeholders within matrixed organizations, and translating compliance and operational requirements into scalable product systems.

Experience

College Sports Commission

Director, CAPS Product & Operations

Jan 2026 - Present

- Enabled 319 Division I institutions to validate revenue share, scholarship, and roster data and attest to compliance with the House v. NCAA settlement by designing the first year-end close-out process from scratch, with no prior cycle or benchmark to build from
- Gave every member school and conference a clear view of its attestation progress by using Claude Cowork and the terminal to generate personalized reports for each school and automate delivery to the correct account holders
- Eliminated 16,000+ manual transactions and cut related support escalations from several hundred to under 60 by shipping NCAA Transfer Portal automation for football and basketball, unblocking receiving schools from processing transfers
- Turned a 75-feature backlog into 23 prioritized items and a twice-monthly release cadence by building CAPS's planning and lifecycle infrastructure from scratch, using AI-assisted prioritization and 16+ stakeholder and user sessions to connect SMEs directly to the roadmap

Fanatics Collectibles (Topps.com)

Principal Product Manager

Apr 2023 - Oct 2025

- Grew revenue from \$150M to \$250M+ in two years by building the first in-house product and engineering team for the Topps.com DTC business and leading product strategy, internal tools for scaling new licenses, and the end-to-end customer experience
- Improved site speed 30%+ and held uptime above 99% by leading a headless migration to Shopify and ContentStack that brought stack ownership in-house and let merchandising and customer service manage content, inventory, and site operations directly
- Grew product discovery ~15% and improved search conversion by leading an SEO-critical site re-architecture, re-indexing the SKU and category taxonomy, and launching intent-driven category pages

Amazon

Senior Product Manager

Sep 2017 - Mar 2023

- Migrated 1M+ accounts and 50M titles from ComiXology to Kindle with zero data loss as GTM lead for the multi-year platform migration
- Generated \$5M+ in new annual revenue and 20%+ YoY growth by creating a vendor-sponsored recommendation tool for Baby Registry that unlocked a scalable ad model for niche markets
- Lifted mobile conversion 10% and engagement 15% by redesigning Baby Registry's item-selection flow based on A/B testing and user insights
- Increased engagement and retention for 50K+ monthly active users by launching Kindle's panel-by-panel comics reader across iOS, Android, and web, leading 14 engineers and 2 UX designers

Freelance Consultant

Marketing & eCommerce Operations Consultant

2012 - 2015

- Delivered 40% YoY sales growth and scaled BaoBae.com from 12 to 50+ vendor partners as first hire, building brand, community, and marketing strategy from the ground up
- Expanded visibility for emerging e-commerce brands by producing 200+ person events and influencer campaigns

American Chamber of Commerce in China

Program Manager

Mar 2010 - Mar 2012

- Doubled programming year over year across several committees
- Tripled the internship program by expanding recruitment and supervising 10+ interns annually
